

## If you are using public transport at all, please follow this new guidance

### That means Nexus is:

- Cleaning and sanitising trains, buses and stations in new ways;
- Providing guidance and information throughout your journey to help you maintain social distance;
- Managing stations to stop them becoming too busy;
- Meeting the Government's covid-secure standard for public transport.

### You can help Nexus to keep you and fellow passengers safe by following a few simple steps:

- Follow guidance on your journey, such as floor and wall markings, to help maintain distance;
- Travel outside the busy peak periods in the morning from 7am to 10am and in the afternoon from 4pm to 6pm, if you can;
- Wear a face covering in confined spaces including stations and vehicles – this can be a simple scarf or snood pulled over nose and mouth, or an over-the-counter mask. This will be compulsory from Monday 15 June;
- Consider walking, cycling and the car as an alternative to public transport.
