

How Covid-19 has affected my Choices and Career Path when I Grow Up

Dame Allan's judges-

Governors- Charlotte Bell and Simon Taylor
Head of Careers - Belinda Whitehouse

We really enjoyed reading the students' work. It was very difficult to choose just one winner, so we chose two and that took a long time to decide as all the entries were very good.

Adnan and Manpreet were common to all 3 judges' shortlists.

Everyone has really enjoyed reading the entries. We are so impressed with the Year 6 class getting involved and thinking about how difficult this time has been, and what they would like to do in the future. Both schools would like to take the opportunity to publish the winners work online.

Winners voucher £10 each

Adnan - Engineer

Clearly structure and content. The words of a budding engineer. Adnan has enjoyed practising engineering at home- building Knex and Lego and watching his dad's work. Adnan is clearly fascinated by engineering.

Manpreet - good use of language

Manpreet was concerned how covid could ruin the future but expressed this from the heart. This is such a well written piece showing how taking advice from others helps and how finding positives in a difficult time helps. Manpreet's clever use of imagery reveals that this is a writer, author or journalist in the making.
